

Charter Bus Services

The charter bus services contracts were established by the Virginia Tech Procurement Department for use by all university departments. It is very important to use a contract charter bus provider because of liability and insurance requirements. The university's contracted vendors meet the industry requirements for safety and equipment upkeep. Going off contract could put the university and the riders at a safety risk. Contact the vendor directly for availability and pricing information for your charter bus needs.

Current Virginia Tech Contract Vendors

Current contract vendors can be found on [the Virginia Tech contract search site](#) and search using the keyword shuttle to view a list of contracted vendors for bus services.

Other chartered bus contracts may be available through [the Virginia Association of State College and University Purchasing Professionals \(VASCUPP\)](#), search using keyword bus to view additional chartered bus contracts.

For more information, contact [Procurement](#), 540-231-6221, or [the HokieMart help desk](#).
