COPIER RENTAL SERVICES

A contract has been established with Konica Minolta Business Solutions U.S.A., Inc. for copier rental services. University Printing Services is administering the program. The benefits of this contract include a straight cost-per-copy rate that includes all supplies including paper, internal invoicing, prompt service and routine maintenance visits coordinated by Printing Services. Copier models are available in a wide range to meet volume requirements.

Under this program, copiers may be networked, without charge, to provide for computer to copier printing. This contract offers attractive financial advantages as compared to the full costs of leasing or ownership. If your Departmental copier is due for replacement, we urge you to consider this cost-effective alternative. For more information about this service, call Danny Suroski at 231-1622.
