Description of Purchase Process:

All University funds, regardless of their source of origin, are public funds and are governed by Virginia law and university guidelines. This procedure provides guidance on the appropriate use of State funds related to business meals and refreshments.

Public expenditures for food must be: 1) in accordance with state policy, 2) reasonable and necessary and 3) part of a bona fide business function of the University. Public funds may NOT be used for events considered primarily social in nature. Generally, snacks or refreshments are not appropriate on State funds; however, exceptions may be approved. Normally, food is not purchased for Virginia Tech faculty and staff. Alcohol is never an appropriate expenditure on State funds.

The department should gain written approval from the Manager of Accounts Payable or an Accounts Payable Supervisor in the Controller's Office prior to purchasing food on State funds. Approval may be obtained by submitting a memo or email describing the event for which food is being requested. The request should describe the event; date of the event; beginning and end time of the event; location; attendees designated as faculty, staff, or guest; and an estimated cost. This documentation should be included with reimbursements, invoices/receipts on HokieMart purchase orders and Procurement Card transactions. The Controller's Office will determine if the expenditure is appropriate on State funds. The same guidelines should be followed on local and auxiliary funds but will not require prior written approval.

This procedure provides guidance consistent with University policies for use of public funds for food and refreshment expenditures. These guidelines provide a non-inclusive list of types of functions for which public funds may or may not be used. Departments must always be very careful to document the business necessity for all food-related expenditures. Generally, it is not considered a business necessity to purchase business meals or reception refreshments at the beginning or the end of an event as employees are then free to make meal or refreshment purchases on their own.

It **MAY BE** appropriate to utilize State funds for **Business Meals** in these circumstances:
