

How Do I Buy...

Printing

For Assistance Contact: [Virginia Tech Printing Services](#)

Procurement Buyer:

[Benny Snuffer](#)

Description of Purchase Process:

Long-standing, general business policy of the University directs that all printing work using university funds be directed to the printing department.

The printing department is a cost recovery auxiliary. Its mission is to provide reliable, high quality, cost-effective printing service to the university. Reliability and quality are valued ahead of price, and should be viewed as the primary reason Virginia Tech operates this service. Pricing is comparable to commercial sources.
